

Parish Facility Use-2015

Number of times each area was occupied during the year

The pie graph above shows how many times each area was occupied from January 1st, 2015 through December 31st, 2015. 7 occupancy areas are identified. 9 areas used as parish offices (6 office spaces, 1 storage room, 1 FDC classroom and 1 FDC double classroom) were not included in the study due to their regular occupation on weekdays, evenings, weekends and holidays. The FDC classrooms consist of a double classroom and several single classrooms. If 1 or more classrooms were occupied, then it was counted as 1 FDC classroom event. Some events occupied more than 1 space and several areas were needed to accommodate it. Examples include monthly faith formation, teen group, Vacation Bible School and the Iowa Social Action Summit (regional conference) held in January.
